

HABCO®

COMMERCIAL REFRIGERATION

Built to perform. Crafted to last.

HABCO's top-of-the-line commercial refrigerators and refrigeration equipment are made with four key elements: value, innovation, quality, and sustainability.

For over 60 years, we've delivered a range of products that are sleek and professional for hotels, restaurants, bars, schools, and all kinds of commercial establishments.

Our reach-in fridge and reach-in freezer products are designed to maximize your kitchen's efficiency and minimize your energy output.

Wide Range of Products

- Merchandising Refrigerators & Freezers
- Solid Door Refrigerators & Freezers
- Sliding Door Refrigerators
- Pharmaceutical Refrigerators
- Purpose Built Models designed to perform in challenging environments, such as outdoors
- Tall Door Coolers & Freezers
- IOT and AI enabled models
- HABCOLogX

Innovation

Our technological advances are what make us industry leaders and customer favourites.

- Cassette® Refrigeration
- Interior Priority Airflow
- Field reversible single door design
- Top-riding, sliding door system
- Free&Clear™ Condenser Coil

Quality

We ensure that our products have the highest industry benchmarks for optimum efficiency, and maximum quality.

Sustainability

Our products are built with award-winning energy efficiency and environmentally conscious sustainability.

Ease of Repair and Maintenance

- HABCO's products are built for easy maintenance and repair
- With our Cassette® refrigeration system, repairs can be effected on or off site, without the removal of the cooler or its contents
- In addition, the Cassette® can be swapped out without the use of expensive tools or a technician.

HABCO®'s product line of reach-in refrigerator and freezer models have an unmatched quality and aesthetic appeal. Ideal for professional kitchens and restaurants where walk-in freezers aren't feasible.
